	33	<b>THALOR JORREL</b> CINEMATIC INFLUENCER	Thalor Jorrel is a passionate short film creator and the bold, self-proclaimed 'visionary' behind the Final Cut Crew — a chaotic team of indie filmmakers known for ambitious ideas and questionable execution. Thalor thrives on over-the-top concepts, often pitching scenes requiring too much fog machine action or suspicious amounts of duct tape.	<b>235K</b>	<i>If playing as a team, each member can dress as a different film role—action hero, rom-com lead, horror villain, sci-fi star, etc.</i>	<b>Final Cut Crew</b>
	34	<b>INDIE SINCLAIR</b> PRANKSTER	Indie Sinclair is the resident prank mastermind and chaotic heart of the Gotcha Gang — a group dedicated to elaborate stunts, unexpected twists, and harmless mayhem. Riot's content is muted colors, cryptic captions, and close-ups of half-empty coffee cups with too much symbolism.	<b>87K</b>	<i>Oversized thrifted sweater, cuffed jeans, and beat-up sneakers.</i>	<b>Still Frame Society</b>
	36	<b>KNOX CINDEHALL</b> VAN LIFER	Knox Cindehall is a free-spirited van lifer and the laid-back leader of The Rolling Cindehalls — a crew of nomads who document their offbeat adventures, DIY projects, and 'totally safe' roadside cooking hacks. 39	<b>MAVEN MIREWOOD</b> POP CULTURE PODCASTER	Maven Mirewood is a sharp-witted pop culture podcaster and the voice of reason (most of the time) for the Rewind & Rant crew — a group of lifelong friends known for deep-diving into movies, TV, and internet drama with zero chill and way too many inside jokes.	<b>827K</b>	<i>Trendy, fashionable attire. Maven wears a Rant Hat— oversized and ridiculous.</i>	<b>Rewind and Rant</b>
40	<b>SLOAN DREVAN</b> DARK & MYSTERIOUS STORYTELLER	Sloan Drevan is a master storyteller and the chilling voice behind the Nightfall Narrators — a group known for weaving unsettling tales inspired by real-life events. Their eerie delivery and ‘this actually happened’ energy has skyrocketed their popularity recently. ## WHAT ARE EXPANDABLE TEAMS?

**Download version: the teams come with expansion pack #3.**

**Boxed set version: the teams come with Kits E through I.**

Expandable teams are optional groups that allow you to add extra players to your murder mystery game without disrupting the core gameplay. These players join as part of a team led by one of the game’s unique suspect characters. In the case of Slay For the Cameras, the expandable team leaders are included in expansion pack #3, as it will be optimal to have all suspects in the game before adding the team roles.

**How It Works:**

- Each team member receives a game card each round, a name tag, and an investigation sheet.
- Team members are second-tier players — they don't have unique character names or backstories.
- Instead, they carry information about their team leader's role in the game.
- Their team leaders are suspects.

**Example:**

A cinematic influencer may bring along the production crew (expandable team). In this example, it's the Final Cut Crew. The crew's cards share details about Thador's backstory, which they can use to mingle with other guests or stick close to their leader during the game — it's flexible.

**Why No Character Names?**

Giving team members unique names can confuse players and cause them to treat these secondary roles as primary suspects mistakenly when the investigation begins. This draws more attention to them not being suspect players, so it's best to avoid this by identifying them only as team members.

**Who Should Play These Roles?**

Expandable roles are ideal for:

- Reserved players who prefer low-pressure involvement.
- Last-minute add-ons.
- Tentative RSVPs.
- In adult games, those who may enjoy a few cocktails.
- Younger players who fall below the game's recommended age.

**Benefits:**

Expandable teams keep extra guests engaged with game materials like everyone else — but without overloading the mystery. After all, investigating 280 suspects sounds more like a full-time job than a party! Keep it simple, fun, and manageable by limiting the number of suspects.
