

HOST CHARACTER LIST – EXPANSION PACK #1

PLAYERS, #17-24.

(6 **Required** Players, 2 **Optional**)

Note: costume colors are just a suggestion, as they go with the character’s name, and when you have a variety of colors– it will make your group photo look awesome and help the players recall the characters quickly.

DOWNLOAD VERSION: You can either play only 1-2 of the optional players listed below **or** all 6 required players in this pack, as they must be played as a group. Or you can play all the characters – required and optional. You do not need to fill all the optional players from the main game before adding these players. Optional players may be added to your game in any combination from any pack. But we do not suggest skipping an entire expansion pack, as the characters are added to the growing character lists in the order of which they occur.

PARTY PACK (BOXED) VERSION: The addition of these characters increases the number of required players in Kit B to 14 required. All 8 players listed below will be prepared and added to the kit, making 24 players for Kit B. These players are also included with Kits C-J.
